

SC350 Scrubber Dryer

The new Nilfisk SC350 represents revolutionary new thinking in small walk-behind scrubber/dryers.

The battery operated machine has a rotating deck system, which integrates the squeegee into the deck itself.

The SC350 is the first compact scrubber dryer able to clean in all directions. In fact the new deck concept enables the SC350 to scrub and dry in both directions - forward or backwards, and water is kept inside the brush deck while working. The outstanding brush pressure and the high vacuum power ensure the best cleaning performance and results.

Furthermore, it is a start and go machine, which doesn't require any training. All components are immediately accessible without the need of tools, making maintenance fast and easy, and cleaning highly performing. The onboard battery charger and lightweight Optima batteries make the Nilfisk SC350 lighter, more eco-friendly and provides ample time for efficient cleaning.

PRODUCT FACTS

- New rotating deck system (with integrated squeegee): first compact unit to clean and dry going either forward or backwards.
- Even cleans hard to reach areas that are typically inaccessible to scrubber/dryers.
- Low noise level enables daytime cleaning, in noise sensitive locations
- Optima batteries: high productivity, constant performance, less weight, less lead, fast recharge capability
- Standard on board charger
- 27 kg of down pressure for excellent scrubbing effectiveness
