

KITCHEN & FOOD SERVICE CHEMICALS

CLEAN 'N' SHINE – An environmentally friendly stainless steel polish. Formulated from a blend of pure mineral and silicone oils which provide longer lasting shine and protection. The unique formulation provides excellent resistance to tarnishing and resoiling making future cleaning easier. Can be used on polished metals, enameled surfaces and appliances. A little goes a long way. Packaged 6 quarts per case.

CUT ABOVE – A heavy duty cutting board and block cleaner. Not only cleans well, it contains bleach to brighten surfaces and remove stains. A ready-to-use product. Packaged 12 quarts per case.

FRENCH FRYER CLEANER – A heavy duty cleaning powder which makes for easy cleaning of French fryers, doughnut machines, filters and other heavily soiled and greasy equipment. Packaged in 16 lb. plastic pails and 125 lb. fiber kegs.

HEAT-WAVE – A freezer and locker cleaner designed for use in the cleaning of food storage areas that are operating at below freezing. Heat-Wave will remove dirt, grime, fat and grease deposits. Packaged 4 – 1 gallon per case.

LARK® – A neutral high foaming synthetic detergent with a combination of anionic and cationic wetting agents and emulsifiers. The foam is instantaneous, stable and long lasting. Especially useful for hand washing of dishes, silver and glassware, and other uses where the safety of a neutral organic detergent is desirable. Packaged 4 – 1 gallon per case, 5 gallon pails, and 55 gallon drums.

METAL CLEANER AND POLISH, SSS – Special blend of cleaners and polishing oils for use on brushed or high gloss metal surfaces. Does not contain any harmful abrasives to scratch or mar surfaces. Leaves a high gloss protective shield which retards resoiling of stainless steel and other decorative metals. Packaged 12 - 18 ounce aerosols per case.

MIN-RID – An excellent demineralizer and delimer. Ideal for cleaning aluminum surfaces, stainless steel, cement or ceramic tile. Effective for descaling coffee urns, cleaning drinking fountains as well as deliming dish machines and steam tables. Packaged 12 quarts per case or 4 – 1 gallon per case.

NO SPOT GLASS-BRITE – A liquid non-ionic detergent for hand washing of glassware. Cleans thoroughly. Provides excellent run off and reduces spotting. Packaged 4 – 1 gallon per case.

OVEN & GRILL CLEANER AEROSOL, SSS – A foaming oven cleaner, removes baked-on grease, oil, food spills. May also be used on pots, pans, barbeque grills, rotisseries. Fast, easy to use, no ooze, will not harden. 12 - 19 oz. cans per case.

OVEN CLEANER, DACO® – A liquid oven cleaner which is super penetrating, fast-working and clings to vertical surfaces. Use with a convenient gallon jug power sprayer for faster results and greater economy. Packaged 4 – 1 gallon per case.

SATIN-SUDS – An effective liquid detergent specially formulated for dishwashing. Delightful light fragrance. Works equally well in both hard and soft water. Makes glassware and cutlery shine! Mountains of long-lasting thick suds makes it good for pots and pans. Neutral pH formula is kind to the most sensitive hands. Contains no alkaline builders, sulfonates or other skin sensitizing or drying ingredients. Packaged 4 – 1 gallon per case, and 5 gallon pails.

STAINLESS CLEANER AND POLISH, 3M BRAND – A quality aerosol product that cleans off old wax and polish as well as grease and finger marks. It covers scratches and leaves a protective surface to resist marking. Food grade oils make this product useable on food preparation surfaces. Packaged 12 - 21 oz. cans per case.

SUPER HYDRO, DA-BRITE® – A machine dishwashing powder. Contains chlorine which reduces spots, stains and bacteria. A free-flowing, chemically balanced compound with a corrosion inhibitor that protects all parts of the machine from the chlorine. Packaged in 16 lb. pails, 75 lb. and 125 lb. kegs.
