

HARD FLOOR MAINTENANCE

ACCELERATE II – A quick effective stripper for removing all types of water emulsifiable finishes. You can strip more square feet in the same amount of time because you will spend less time waiting. Packaged 4 – 1 gallon per case, 5 gal. pails, 55 gal. drums.

BRITE-BUFF – A water based spray buffing compound for hard finishes such as Ultimet® HP, Ultimet 2000, and Ultimet 21 Plus. Cleans and polishes as you buff with a red or white pad and a 175-300 rpm buffer. Finish looks better and lasts longer. Pleasant fragrance. Works better than diluted finish. Packaged 4 – 1 gallon per case.

COLOR-BACK – A remarkable new color restorer for floors that are faded or bleached due to age, stripper burn, high traffic, overly abrasive pad use, spills, etc. Restores vinyl, vinyl asbestos and asphalt tile floors to their original brilliant color. Packaged 4 – 1 gallon per case.

DRI-BUFF – The amazing floor maintenance cleaner and polisher in paste form. Eliminates damp mopping and produces a high-gloss slip-resistant surface. Just squeeze out 3" on the floor and polish 1,000 square feet in one easy step. Packaged 6 pint squeeze bottles per case.

FIRST LIGHT FLOOR FINISH DRESSING – A concentrated Floor Finish dressing, for application prior to buffing or burnishing. FIRST LIGHT can be run through an automatic floor machine. When used twice per week, the life of the finish can be extended. Packaged 4 – 1 gallon per case.

POLY-STRIP® – A high powered stripper for removing all water based finishes and sealers. Highly concentrated for greater economy. Ammoniated formula with no ammonia smell. Non-flammable. Packaged 4 – 1 gallon per case, 5 gal. pails, and 55 gal. drums.

POLY-STRIP® PLUS – A very strong finish remover for extreme situations. Requires strict attention to safety. For use by contractors and other professionals only. It will penetrate and emulsify multiple coats of finish. Contact your Damon Representative for more information. Packaged 4 – 1 gallon per case, 5 gal. pails, and 55 gal. drums.

RE-LEESE – A mop-on stripper designed to remove thermoplastic finishes or in situations where a machine is not available or practical. More aggressive than Poly Strip. Do not use with the 3M High Pro pad on pure vinyl, vinyl asbestos, asphalt or rubber. Packaged 4 – 1 gallon per case, 5 gal. pails, and 55 gal. drums.

SPRAY BUFF CLEANER AND POLISH, 3M BRAND – Fast working solvent based action removes dirt, scuffs and black marks and renews gloss. Regular use helps the finish to resist marking so floors are easier to maintain. Packaged 4 – 1 gallon per case,

ULTIMET NEUTRAL CLEANER – Designed to clean any type of finish without dulling the finish or leaving a hard-water haze. It contains a new polymer that doesn't react with hard water to create a film. Dilutes at 1 ounce per gallon. Packaged 4 – 1 gallon per case, 5 gal. pails, and 55 gal. drums.

ULTRA-GLOSS NEUTRAL CLEANER – Designed for ultra high speed floor programs, but may be used to clean any type of finish. The neutral pH prevents the dulling of "wet look" finishes caused by alkaline cleaners. An effective cleaner at an economical dilution of 1 ounce per gallon. Packaged 4 – 1 gallon per case, 5 gal. pails, and 55 gal. drums.

ULTRA-GLOSS RESTORER – A unique thermoplastic restorer designed to renew the "wet look" of your finish after traffic causes dulling. It is applied by damp mop and allowed to dry. Then it is buffed using a 1,000 - 2,000 rpm burnisher. Packaged 4 – 1 gallon per case.
