

CLEANWORKS®

Cleanworks Modular Dispensing System

Dispenses precisely diluted cleaners with the touch of a button. Features simple installation with Phillips screw driver and one hose hook-up to various water sources. Uses only 4 square feet of space for six products. One-step refill in 10 seconds. Fill both buckets and bottles with ease. The closed system virtually eliminates spills and leaks. No employee contact with concentrates. One button dispensing with no electricity required or computer to learn. Automatically mixes chemicals at the proper dilution rate to insure proper cleaning and eliminate waste. For ease of use and safety all products are both color and number coded. Labels are available for end use bottles. Material Safety Data Sheets for both concentrate and diluted product. Dispensing stations come in single, three or six chemical combinations. Mount on a shelf or on the sturdy Cleanworks cabinet.

PRODUCT

WHY IT'S BETTER

- | | |
|---------------------------------------|------------------------------------------------------------------------------------------------------|
| 1. MULTI-PURPOSE CLEANER | No rinsing Contains no caustics Clean light scent |
| 2. GLASS CLEANER | Dust Retardant Formula No caustics or phosphates Leaves surfaces film-free |
| 3. DISINFECTANT DETERGENT | Virucidal against HIV-1 (Aids) E.P.A. Registered Effective in 400ppm hard water |
| 4. DISINFECTANT RESTROOM CLEANER | Kills most gram negative and gram positive organisms Removes soap scum |
| 5. NON-ACID BOWL CLEANER | Freshens restrooms for hours No strong acids Cleans quickly and thoroughly |
