INDUSTRIAL SPECIALTIES

ACID STOP "N" – Pickling tank foam blanket that creates foam from bubbles to alleviate hazardous fumes and keep nearby equipment from corroding. Packaged in 55 gallon drums.

GG-77 – A non-flammable, non-butyl industrial degreaser that is low foaming. Used for production line cleaning, heavy plant cleaning, and for extremely soiled manufacturing equipment. Can be used in hot areas without the fear of explosion. Packaged in 5 gallon pails and 55 gallon drums. Also available in totes.

FORMULA 98 – An economical cleaner degreaser with an almost neutral pH. A very good oil emulsifier. Works well in riding scrubbers for industrial and commercial applications. The no odor formulation makes it user friendly to the machine operator and surrounding employees. Packaged 55 gallon drums and 330 gallon totes.

B.O.C. #10 – Formulated for hot tank stripping of paint from copper/brass radiators, but works well wherever a caustic based cleaner stripper is required. Contains water conditioners, wetting agents and buffers for faster cleaning and longer life. **B.O.C. #2** contains chelates and has less caustic for better rust and deposit removal. Packaged in 40 lb. pails, 100 lb. and 400 lb. drums.

DA-PARTS – An odorless solvent degreaser for parts washers, and removing heavy grease and dirt. Moderate evaporation rate. Flash point of 120-130 degrees F. Effective and economical. Packaged 4 – 1 gallon metal cans per case and 55 gal. drums.

ENVIRO-SOLVE – A fast acting, alkaline and citrus degreaser that accomplishes heavy cleaning tasks that many general cleaners can't. It is non-flammable and biodegradable. Excellent for use on resilient tile floors to remove black marks tracked-in from parking lots. Works equally as well on concrete floors, engines and machinery. Packaged in 5 gallon pails and 55 gallon drums.

PAINT STRIPPER, DACO® – An alkaline based paint stripper with extra punch. Formulated for a large paint manufacturer to spray clean vats and tankers. May also be used in a hot tank. Packaged in 450 lb. drums.

RAPID DESCALER, DACO® – An inhibited hydrochloric acid cleaner/descaler for any heavy duty application. For removing hard water scale, rust, cement, gunnite, etc. Contains surfactants for faster action and inhibitors to protect metal. For greater inhibitor protection use **Boiler Descaler**. Packaged 4 – 1 gallon per case and 14.5 gal. carboys.

SUN-KLEEN – A d-limolene citrus general purpose solvent. May be used full strength, diluted with water or mixed with other solvents to improve solvency and improve their smell. May be used on a wiping cloth for removal of adhesives or grease. Very low toxicity. Flash point 112°F. May be used anywhere a petroleum solvent is now being used. Affects acetate and styrene plastics. Packaged in 4 – 1 gallon per case.

SUN-SOL – The same as Sun-Kleen, but is water emulsifiable and water rinsable making it great for removing tar and grease. Packaged in 4 – 1 gallon metal cans per case, 5 gal. metal pails and 55 gal. drums.

INDUSTRIAL CHEMICALS

ACID, HYDROCHLORIC (MURIATIC) 20% – Available in 4 – 1 gallon per case and 14 gal. returnable carboys.

CAUSTIC SODA (SODIUM HYDROXIDE) – Flake 99½% in 100 lb. and 500 lb. steel drums.

METHYL ETHYL KETONE (M.E.K.) – Solvent and paint stripper packaged 4 – 1 gallon metal cans per case.

SODA ASH – Light 58%, 99% pure packed in 50# bags or dense #160 FMC in 100 lb. bags.

SODIUM SILICATE #9 – 55 gal. drums.

TRISODIUM PHOSPHATE (TSP) – 50 lb. bags.
