Keep Your Entrances Clean and Dry!

Daco Metal Soap Absorbent

Regular floor cleaners do not do a good job of removing ice melter residue. Damon Industries manufactures a specialty product called **Daco® Metal Soap Absorbent** for this task. It has chelating (pronounced key-late-ing) agents to dissolve salt and calcium residues and rinse them away.

Big clean for small spaces.

Moving beyond the mop.

- Compact design is ideal for scrubbing small spaces quickly.
- Creates a cleaner, more sanitary environment than mopping.
- Versatile unit cleans hard surfaces, entrance matting, and carpet quickly and effectively.

Specialty Winter Product

Da-Brite Salt Neutralizer

Da-Brite® Salt Neutralizer adds years to the life of your vehicles by neutralizing corrosive salt residue. Safe for the entire truck surface and undercarriage. Easy application with the Seko Pro Spray 2 Unit.
