TERMS: Minimum order is \$900.00. Net 30 days to approved customers.

FREIGHT: Freight charges will be shown on the invoice. If a freight allowance applies it will also be shown on the invoice. The freight allowance may only be deducted if the invoice is paid in 30 days. Freight outside the U.S. must be paid by the customer.

AIR FREIGHT & NEXT DAY AIR: Some items may not be shippable by air or may be shippable only by cargo-only aircraft and in limited quantities.

COMBINATION PRIVILEGES: If your order is for \$2,500 or more you may use the Tier 2, \$2,500 and over, pricing for all items ordered.

NO BROKEN CASES. Minimum of each product is one case. Quantity ordered must be a multiple of case quantity. Please note that some part numbers are for a case and others are for single units, depending upon whether we sell single units at retail.

EMPTY SHIPPING BOXES: Single pack empty D.O.T. cartons are available for the following products. 1) Quarts of Red-Kote, 2) Gallons of Liquid Flux. These have the required D.O.T. and O.S.H.A. hazard warning labels on them. Call for prices.

FILL IN ORDER PRIVILEGES: Distributors are allowed an occasional fill-in order of less than the minimums at their usual price. The distributor pays the freight on these fill-in orders. There is no freight allowance.

DROP SHIP ORDERS: If a distributor normally stocks an item we will be glad to drop ship if you are temporarily out of stock. If a distributor does not normally stock an item we will still be glad to drop ship it for an additional drop ship charge of \$15.00. The distributor is invoiced at their usual price level plus freight charges and the \$15.00, if applicable. Note that minimum freight charges are quite high and that UPS and RPS add hazmat charges. We can quote freight before shipping if you wish.

FREIGHT ALLOWANCE: Orders of \$900 or more, but less than \$2,500, the freight allowance is 50% (customer pays 50%). Orders of \$2,500 or more the freight allowance is 100% (customer pays nothing). The invoice will show the prepaid freight and the freight allowance, if any. Invoice payment must be received by Damon no later than 30 days from the invoice date for the freight allowance to be deductible from the invoice. There is no freight allowance on air freight or ocean freight. On international orders the freight allowance applies to the U.S. port of export only.

SPECIAL DELIVERY SERVICE CHARGES: Our freight allowance covers regular delivery that the trucking companies call "tailgate delivery". When the customer requests special handling that is charged for we invoice the customer for that additional charge. Some of the services you may be billed for include lift-gate delivery, inside delivery (when the driver takes the freight off the truck for you and puts it anywhere), rescheduled delivery times and many others. We will only invoice you for the exact charge we are invoiced by the freight company.
